

Titan Logix Corp. Announces New Director

Edmonton, Alberta, January 13, 2010 – Titan Logix Corp., (TSX Venture: TLA), an advanced technology industrial instrumentation and controls company, announces that at its Annual General Meeting (the "Meeting") of shareholders held on January 8, 2010, the following were re-elected directors for the ensuing year:

Bob (R.W.) Logan – Chairman
Sargent Berner
Harvey Ramstead
Les Evans

At the Meeting, shareholders also elected Dave Kastelic, CMA as a new director of the Company. Mr. Kastelic is currently Practice Leader of Mercer Bradley, a financial recruitment specialist firm. His career includes more than 25 years management experience including senior finance and accounting roles as well as extensive senior leadership experience. Mr. Kastelic's industry experience has included business start up, acquisition and integration of business units, business development, public company reporting and compliance. He holds a Bachelor of Commerce degree from the University of Alberta.

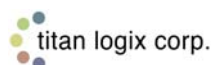

"We welcome Dave and the new dimension he brings to Titan's Board," said Les Evans, President and CEO of the Company. "His strong background in entrepreneurial leadership will be invaluable to Titan's corporate growth and shareholder satisfaction."

Mr. Kastelic was awarded 100,000 incentive share purchase options exercisable at \$0.20 per share to January 8, 2015. The Board of Directors also approved additional incentive stock options for an aggregate of 120,000 shares (20,000 for each of the other directors and officers) which are also exercisable over the five year period ending January 8, 2015 at a price of \$0.20 per share. All options were granted in accordance with the company's stock option plan as approved by the shareholders on January 17, 2003.

About Titan Logix Corp.:

Founded in 1979, Titan Logix Corp. has evolved into an advanced technology industrial instrumentation and controls company. We design, manufacture, distribute and service instrumentation, control and automation solutions. These are primarily for the oil and gas, transportation and aviation industries, which for many years have relied on manual intervention. However, due to rising costs, concerns and awareness about the environment, (including the importance of spill prevention) and technological advancements - to list but a few reasons – we expect an increased demand for our products. The products we specialize in comprise an essential part of a complete asset management solution in the following categories:

- Transport Instruments: guided wave radar liquid gauging and control systems for mobile tankers;
- Level and Flow Instruments: mechanical and electronic liquid level gauging systems for storage tanks and industrial process vessels;

- Burner Controls: electronic burner management systems for atmospheric industrial heaters; and
- Telemetry and Control Products: communication and control systems enabling remote telemetry and management of site processes.

Titan Logix Corp. is a public company listed on the Toronto Venture Stock Exchange and its shares trade under the symbol, TLA.
