

# pyro-plug

## thermal heat-fuse alarm centrifugal pump protection

When centrifugal pumps are not moving fluids, the case and impeller reach extremely high temperatures. The Pyro-Plug detects high temperatures and shuts down the motor or control circuit.

Numerous temperature ranges are available for various applications. The Pyro-Plug is CSA approved for use in hazardous environments.

The Pyro-Plug is specifically designed for use in **hazardous environments** as a safety & preventative maintenance device.

- CSA Approved
- Explosion Proof Rated for Hazardous Areas
- Rated to 15 amps @ 240 VAC
- High Temperature Shutdown
- Heat Trace Thermostat
- Temperature Alarms
- Prevents Possible Fires
- Prevents Impeller Failure
- Prevents Seal Failure

**Protect your investment.  
Install Pyro-Plug.**

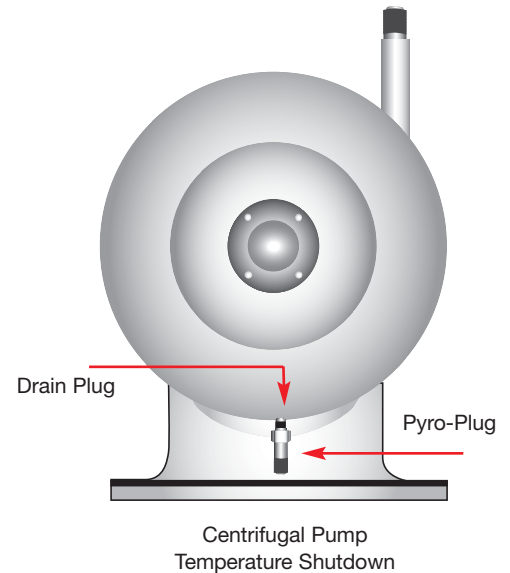

# specifications

## • CSA Approved:

- Class I Groups A, B, C & D
- Class I, Groups E, F & G
- Explosion Proof Electrical Rating
- 316 Stainless Steel or Brass Housing
- Resettable or one-time
- Factory Sealed
- 15 amp@240 Volt AC Rating
- Normally Open or Normally Closed Contacts
- NPT Electrical Connection
- NPT Pipe Thread

## applications –

- Oil & Gas Refineries
- Pump Jack Motors
- Pipeline Facilities
- Mining Equipment
- Pulp & Paper Plants
- Industrial Plants
- Compressors & Engines
- Motor Control & Shutdown
- Grain Handling Equipment
- Bearing Temperature Shutdown
- Forestry Equipment
- High-Low Temperature Alarms
- Heat Trace Thermostats
- Centrifugal Pumps
- Combustible Dust

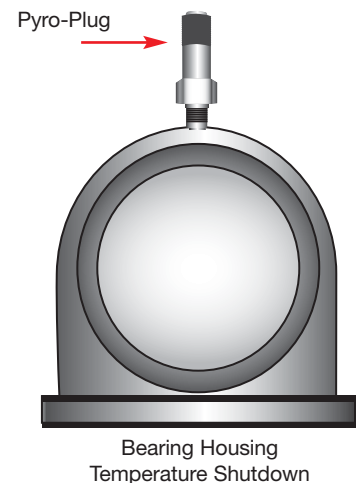

Ideal for centrifugal pumps, the Pyro-Plug works to detect high-temperature changes.

## locations

**Head Office**  
4130 -93 Street  
Edmonton, Alberta, Canada  
T6E 5P5  
P (780) 462-4085  
F (780) 450-8369

**Calgary Sales Office**  
Box 306, #440 10816  
Macleod Trail S.  
Calgary, Alberta, Canada  
T2J 5N8  
P (403) 251-5797  
F (403) 251-2480

**Saskatchewan Branch**  
Box 460, 103 Cenaiko Street  
Lampman, Saskatchewan, Canada  
S0C 1N0  
P (306) 487-2883  
F (306) 487-2889
