

## **Titan Logix Corp. Announces Exclusive Canadian Sales Agreement for TankScan Liquid Level Measurement Technology**

**Edmonton, Alberta, April 20, 2016** – Titan Logix Corp., (TSX Venture: TLA) (“Titan” or the “Company”), a high technology company specializing in advanced technology fluid management announces it has secured a partnership with ATEK Access Technologies for the exclusive Canadian Value Added Reseller opportunity for ATEK’s industry leading line of remote tank monitoring solutions.

“Our industry leading line of remote tank monitoring solutions help our customers address safety considerations, cost effectively manage fluids and improve operational efficiencies,” said Sherri McDaniel, president of ATEK Access Technologies. “Titan’s proven leadership and extensive expertise in manufacturing and marketing of advanced technology fluid management solutions will help us meet the growing demand for the trusted TankScan product line throughout Canada.”

Titan Logix will be responsible for selling ATEK Access Technologies’ TankScan products into new and existing accounts, and identifying new applications for those products. The TankScan TSM8000 and TankScan TSU Ultrasonic liquid tank monitors provide the tools necessary to accurately monitor fluid levels in multiple tanks, across numerous sites, from anywhere an Internet connection is available. The TankScan monitors are ideal for petroleum product distributors and others managing liquid assets, primarily intended for use in downstream, refined petroleum tanks. They optimize the distribution and collection processes while decreasing the need for manual inspections at remote tank sites. TankScan monitors also ensure trucks are deployed efficiently, eliminating costly run outs or overflows and providing customers with what they need when they need it.

"The exclusive Canadian TankScan VAR agreement for this industry leading tank monitoring solution is an important addition to Titan's family of level measurement technologies", said Greg McGillis, P.Eng., Titan's President and CTO. "The TankScan product suite provides our customers with a low cost, cloud-connected solution that eliminates the need for manual dipping of tanks, and facilitates tanker delivery route optimization, saving time, fuel and money. This exclusive third party product opens doors to new markets for Titan. It is an innovative product that enables Titan to more fully deliver on its mission to provide advanced technology fluid management solutions in the field, on the road and in the office."

### **About Titan Logix Corp.:**

Founded in 1979, Titan Logix Corp. (“Titan” or “the Company”) is a high technology company specializing in Research and Development (R&D), manufacturing and marketing of advanced technology fluid management solutions. The Company's products include Guided Wave Radar (GWR) gauges for level measurement and overflow prevention (particularly for use in mobile tanker applications), level gauges for storage tanks, and communication systems for remote alarming and control. Our products are currently used in the oil and gas, waste fluid collection, chemical and aviation industries.

Titan’s products are part of a complete asset management solution. The full solution consists of Titan’s products integrated with best-in-class third party solutions to enable our complete fluid management throughout each stage of their fluid handling processes. This is captured by our slogan “Advanced Technology Fluid Management Solutions, In the Field, On the Road, In the Office”™.

- In the Field: "In the Field" refers to Titan's solution offerings for storage tanks and process vessels.
- On the Road: "On the Road" refers to Titan's solution offerings for mobile tanker trucks and trailers.
- In the Office: "In the Office" refers to Titan's solution offerings that enable customers to monitor their fluid assets from the convenience of their dispatch center or other back office environment through a wired or wireless connection.

Titan Logix Corp. is a public company listed on the TSX Venture Exchange and its shares trade under the symbol TLA.

### **About ATEK Access Technologies**

ATEK Access Technologies, LLC is part of the ATEK Companies group of technology and manufacturing businesses. Its industry-leading brands use the power of advanced machine-to-machine (M2M) technologies to provide customers access to superior efficiencies and savings, essential data and systems, improved safety and control, and expert solutions and support. Its brands include AssetScan, Datakey, Larco and TankScan. For more information, visit [www.atekaccess.com](http://www.atekaccess.com)
